

*** For all of you who are hybridizing daylilies, or other perennials for that matter, we sell the same hybridizing tags we use here.

*** These are 1" wide x 3" long, and are a slip lock design, which means they easily fasten around the stem of the flower you are applying pollen on. They are styrene plastic, with one side glossy, and the other side matte; we use pencil to write our information on the matte side, although you could also use the glossy side for an adhesive label as well.

*** Once attached, these tags follow from pod harvest through seed planting, and we often can erase and reuse them up to three seasons, depending on the weathering of the tag.

*** We have four colors available, White, Yellow, Orange, Red, and are sold in lots of 25, 50, or 100. Pricing for white tags are: 25/\$1.25, 50/\$2.25, 100/\$4.00. Colors are 25/\$1.50, 50/\$2.75, 100/\$5.00; plus tax and shipping where applicable.

*** Often it is handy to use one color for Tet crosses, and another for Dip crosses, while the bolder colors stand out during pod harvest. Contact us if you're interested.

*** Special pricing available on full rolls of 1000 tags.
