

LASTING DREAMS DESIGNS

Bringing the Beauty, Color, and Form of Daylilies into your Everyday Life.

As “Lasting Dreams Daylilies” we have been growing, hybridizing, and selling Daylily Plants (Hemerocallis) since 2005, and since then have continually been captivated by the varied colors, shapes, forms, and sizes Daylilies have to offer.

Throughout the years we have been able to capture the beauty of these cultivars through our own photography and illustrations, but have been longing to take an additional step; that being the ability to combine the beauty of these flowers with our own artistry to create original and exclusive designs to share with others to enjoy.

In 2021 we started “Lasting Dreams Designs”, and partnered with “Etsy” as our first retail vendor. While we do have a “Gift Shoppe” at our Nursery, our Etsy Shop gives us the opportunity to offer our products and designs to a wide audience.

This has enabled us to present our own line of products, leading off with Stickers and other Accessories, Home & Living Décor, as well as Clothing & Apparel. While our selection of Stickers are produced in house, we partner with top name companies and suppliers to produce items on our behalf, with prompt and safe delivery to your address.

While we strive to introduce new additions to our product line on a regular basis, our rollout of new items is measured. We create our own custom designs, graphics, and use our own photos and images for the products we offer; we do not simply purchase other graphic material, and attach it to a product.

Once we finalize our design, and before we put that item into production, we work to ensure that those items meet our quality standards; they don't get added to our Etsy Shop until we are fully satisfied.

Our goal is to insure that no matter what you select, what you receive will meet or exceed your expectations; just like the plants we sell from our nursery.

With the over 2000 different cultivars that we grow, we are able utilize those exclusive images within our designs, including blooms of daylily cultivars not widely available.

If you already collect Daylilies, you can envision what we can offer; if you're new to Daylilies, prepare to be dazzled.

This is truly a dream come true, to be able to combine our Love of Nature, with the elements of Photography, Drawing, Calligraphy, and other Artwork, enabling us to bring joy to others through the Beauty of Flowers and Design.
