

Purchasing Daylilies For Pickup From Our Nursery...

We offer two options for folks who want to purchase from us, and pickup their order here at our Nursery; one is by ***Pre-Order***, the other is by ***Visit Order***.

To Pre-Order, shoppers utilize a combination of our **Catalog Photo Albums (Posted on Facebook)**, with our **Current Catalog (Posted on our Website)** to make their selections;

the advantage is that the customer can receive the full plant without heavy trimming which would be required for shipping, plus they save on those additional costs.

To Visit Order, customers start with contacting us to **schedule an appointment** to tour our **Display Garden**, and select those plants that appeal to them, as they stroll through the rows of daylilies in bloom.

In both instances we work individually with our customers to have their selections ready for them, when they are ready to plant.

We offer three **“Sunday In The Garden”** events during the season, and these events offer the opportunity to shop, without the need to schedule an appointment.

On these specific Sunday afternoons, we do have potted daylilies available for “Cash & Carry”, but generally orders requiring field digging, would be fulfilled by pickup or shipping on a future date.
