

What's New For 2023 – Discounts & Sales

Daylilies beckon to each of us individually, so we set our promotions so that our customers can enjoy great savings all season long, on cultivars they are especially drawn to, and these opportunities are available in various ways.

Our Bonus Plant program allows shoppers to select a free daylily plant from among a list of cultivars we reserve each season, and this applies to every \$50 in sales after discounts are applied. For those who are members of our Facebook Group, they also have a Special Bonus List of Premium Daylilies they can select from. Here is a link to join that group:

<https://www.facebook.com/groups/270133113983147>

Our Facebook Group is also where you will find the very best discounts and promotions available, however there are other various methods we employ to give visitors an opportunity to save on their purchase. At times we will post offers on our Facebook Business Page or here on our Website, and we always have postcard handouts when we are vendors at various venues, offsite events, and sometimes from other Open Garden events sponsored by others.

When we host events onsite like our “Sunday In The Garden” or “Evening In The Garden” series, we always have opportunities for great savings available to those attending, and most often those discounts are available to those visitors all season long.

What we don't do is season end sales where everything in stock is marked down in price; we would rather offer our shoppers savings on daylily bloom they can enjoy immediately, and not wait until the following year.
