

We have concluded our 2024 Season.

Our Nursery, Display Garden, and Gift Shoppe are all now closed for the Season. We want to thank everyone who not only took time to visit us at one of our events, but especially those who purchased from us this year.

Some became enamored while personally enjoying the huge selection beautiful daylily cultivars available, while others took advantage of our Catalog Photo Albums, to select some special daylilies to complement their garden landscape; in either instance, we appreciate you choosing and trusting us to provide you with outstanding plants, that you will continue to enjoy for years to come.

Anyone who has made a pre-arrangement with us, will have their orders fulfilled the first week of September; otherwise any orders received after 8/31/24 will be held for fulfillment next May, with pickups and shipping to resume June 1st.

Orders can be submitted by email, either by request, or using the order form available here on our website, where you will find our full catalog and other resources posted below, to assist in completing an order. Our BOGO Promotion will continue through Fall and Winter, with fulfillment next Spring as well. All orders will be held till May 2025, at which time we will contact those individuals to confirm their selections, and invoices will be sent prior to June shipping.

Normally we would take this opportunity to note some of our plans for the 2025 Season, but we are a Licensed Commercial Nursery & Grower, and thus have duties and responsibilities which accompany how we operate, and those are dictated by both government regulation, and by economic conditions.

As the remaining months of 2024 progress, we will have a better indication and outlook for our 2025 Season; we will adjust accordingly, and continue to provide our customers with exceptional daylilies, with distinctive form and color, and spectacular garden presence.
