

*** We've already posted about changes on how we will be operating our Nursery/Display Garden for 2021, and into the future. That information can be found as a pinned post at the top of our main Facebook page, or viewed as a PDF File on our website.

*** Soon we will start posting specifics on how we intend to implement these changes, which is going to enhance the experience for our visitors/customers, and facilitate any purchases which may result.

*** We will roll out these changes in a series of posts, and again they will also be available on the website (www.LastingDreamsDaylilies.com) for your viewing.

*** Please feel free to comment or contact us directly on these changes, as we are striving very hard to adapt for whatever situations and contingencies could arise; but it is also likely that our Facebook followers, visitors, customers, and general supporters may identify something we've overlooked, and that we can then address.

*** It's important to remember, we're simply evolving, and not closing in any way.
